

Working Committees

The services ASPE provides to its members don't happen in a vacuum. They come from the work of our active membership and Board members. Following are the working committees be established for the upcoming year. Please support these members in the work they are doing the Society's behalf. And please feel free to contact the chairpersons of these committees if you wish to become more involved in your society – new input and contacts are always appreciated.

Committee chairs are required to report on committee status and planning at each State Board meeting.
